Formerly the Archbishop Temple School, The Chandlery is set in its own secure courtyard and still retains many fine features including Dutch style gables, large timber frame windows and high ceilings. The building has recently been carefully converted into self-contained character offices with luxury flats above and all finished to a high standard.

The Chandlery is ideally located on the north side of Westminster Bridge, near the junction with St George's Road, conveniently placed for services to both the City and The West End. Waterloo (Northern, Bakerloo, Jubilee and national railway services) and Lambeth North (Bakerloo) Stations are within easy walking distance.

Flexibility

Lenta Business Centres provide high quality instant offices on a versatile monthly licence agreement. Our simple easy-in and easy-out terms are much more flexible than leasing. Lenta make budgeting easy for you by providing just one simple itemised invoice each month, inclusive of all utilities and services, allowing you to predict your monthly expenditure.

Financial Security

Unlike a number of operators, Lenta Business Centres place your deposit in a separate bank account – ready for it to be handed back to you upon your departure. We do not use your deposit as working capital.

Lenta Business Centres

Lenta have over 25 years experience in operating high quality business centres. We own and manage The Chandlery where our aim is to provide your company with not only a conducive working environment, but also the most professional and courteous service.

Other Locations

Lenta Business Centres operate Serviced Office Centres in the following locations: London – The City, Holborn, London Bridge, Putney, Southwark, Stratford, Tottenham and the West End. We also have centres at Watford, Swanley, Swindon and Norwich. Our Licencees may use existing services at any of our locations.
