The Grove Business Centre, formerly known as The Tottenham Enterprise Centre, underwent a striking internal conversion to provide today's offices and workshops, along with an attractive atrium entrance.

With its convenient North London location, The Grove Business Centre is situated on the High Road, close to Bruce Grove Station (mainline), which provides direct access to the City of London within 20 minutes. Combining this with our professional management team, offering support for you and your business, makes the Grove Business Centre a much sought after location.

Flexibility

Lenta Business Centres provide high quality instant offices on a versatile monthly licence agreement. Our simple easy-in and easy-out terms are much more flexible than leasing. Lenta make budgeting easy for you by providing just one simple itemised invoice each month, inclusive of all utilities and services, allowing you to predict your monthly expenditure.

Financial Security

Unlike a number of operators, Lenta Business Centres place your deposit in a separate bank account – ready for it to be handed back to you upon your departure. We do not use your deposit as working capital.

Lenta Business Centres

Lenta have over 25 years experience in operating high quality business centres. We own and manage Grove Business Centre where our aim is to provide your company with not only a conducive working environment, but also the most professional and courteous service.

Other Locations

Lenta Business Centres operate Serviced Office Centres in the following locations: London – The City, Holborn, London Bridge, Putney, Southwark, Stratford, Waterloo and the West End. We also have centres at Watford, Swanley, Swindon & Norwich. Our Licencees may use existing services at any of our locations.
